## Summary

Enthusiastic and self-motivated undergraduate pursuing B.Tech in Information Technology at NIT Jalandhar, with a strong foundation in full-stack web development, data structures, and competitive programming. Experienced in building responsive and scalable applications using React, TypeScript, Node.js, and MongoDB. Proven problem-solving ability with 600+ questions solved on LeetCode and participation in national-level coding contests. Passionate about clean code, system design, and continuous learning.

## Education

|----------------------------------------------------------------------|-------------------------|
| <b>Dr. B.R. Ambedkar National Institute of Technology, Jalandhar</b> | Aug 2023 – Present      |
| Bachelor of Technology in Information Technology                     | <b>CGPA: 8.57/10</b>    |
| <b>Kendriya Vidyalaya Suranussi, Jalandhar, Punjab</b>               | 2022                    |
| Senior Secondary Education (CBSE)                                    | <b>Percentage: 92.0</b> |

## Technical Skills

**Languages:** C, C++, JavaScript, TypeScript, Python  
**Frontend Development:** React.js, Next.js, Tailwind CSS  
**Backend Development:** Node.js, Express.js, WebSocket  
**Databases:** MongoDB, MySQL  
**Developer Tools:** Git, GitHub, VS Code, Postman  
**Coursework:** Data Structures & Algorithms, Operating Systems, Computer Networks, Database Management Systems, Object-Oriented Programming

## Projects

**Portfolio Website** | *React, Vite, React Router DOM, Tailwind CSS* [View GitHub](#)

This is a personal portfolio website showcasing my projects, technical skills, and experience. It reflects modern frontend design principles with seamless routing and a responsive layout.

- Developed using React with Vite for lightning-fast build and development experience.
- Implemented client-side routing with React Router DOM for smooth navigation between sections.
- Styled using Tailwind CSS for a clean, responsive, and mobile-friendly interface.
- Deployed on Vercel for reliable hosting and fast load times.

**ZapCar** | *TypeScript, React, Node.js, Express, MongoDB, Razorpay API* [GitHub](#)

ZapCar is a full-stack car rental and booking web application that streamlines the process of discovering, booking, and paying for vehicles online. It offers real-time availability, secure payments, and a seamless user experience.

- Developed using **React** with **TypeScript** for robust type safety and scalable front-end components.
- Integrated **Razorpay API** to handle secure and seamless online transactions for bookings.
- Built a RESTful backend with **Node.js** and **Express**, with data persistence using **MongoDB**.
- Enables users to browse cars, check availability, and complete bookings with live updates.
- Implements user authentication and session management for a secure and personalized experience.
- Designed with modular and reusable components, following best practices for clean and maintainable code.

**Currency Converter** | *React, JavaScript, Tailwind CSS, REST API* [View GitHub](#)

Currency Converter is a responsive web application that allows users to convert between various currencies in real time, providing a simple and intuitive interface for global currency exchange.

- Developed using **React** and modern **JavaScript** to build a dynamic and responsive user interface.
- Utilized a real-time **currency exchange API** to fetch up-to-date conversion rates based on user input.
- Designed with **Tailwind CSS** for a clean, mobile-friendly UI with smooth transitions and component styling.
- Implemented real-time conversion on input changes using **useEffect** and React state management.
- Features include currency swapping, form validation, and disabled input for the converted value to prevent accidental edits.
- Focused on accessibility, user experience, and performance optimization throughout the app.

## Achievements and Co-Curricular Activities

---

- Achieved a global rank of **1179** among **26,805** participants in **LeetCode Weekly Contest 450**.
- Secured an **All India Rank (AIR) of 17092** in **JEE Mains 2023**, scoring in the top **98.5+ percentile**.
- Active on competitive programming platforms:
  - **Codeforces**: [vishaldangwal09](#) — Max Rating: **1064**
  - **LeetCode**: Rating **1701**; Solved **600+** problems across various difficulty levels
- Demonstrated strong teamwork and sportsmanship:
  - Won **Gold** in intra-hostel football and **Bronze** in inter-branch football tournaments
  - Secured **Silver** in inter-hostel cricket tournament

## Experiences

---

- Actively involved in the **National Service Scheme (NSS)**, contributing to community outreach programs, environmental awareness campaigns, and social service drives.
- Volunteered as a **blood donor** during the campus-organized blood donation drives, supporting life-saving initiatives.
- Participated in **campus cleanliness and public health campaigns**, promoting hygiene and well-being within the institute.
- Assisted in organizing NSS-led events and awareness rallies, gaining experience in **event coordination and team collaboration**.
- Engaged in **peer mentoring and support activities**, helping juniors adapt to academic and campus life challenges.
